KWH 225i Hybrid Integrated

The KWH 225i represents the culmination of years of SS and tube preamp and amplifier design. Our preferred approach has always been that of a hybrid system. The KWI 200 SS integrated amp was a big success for us, offering excellent performance and integration. The KWH 225i takes things to the next level. We combined the solid state output stage of our Reference KWA 150SE amp with the controls and integration of the KWI 200 and a tube preamp stage. We then increased the power to 225W. The result is the KWH 225i. We think you'll like it!

FEATURES:

- (3) sets of RCA inputs.
- (1) set of XLR inputs.
- (1) Home Theater Bypass Input (HTBP).
- Preamp Output.
- Optional SS phono stage (user installable).
- Front panel controls: Input select, power, volume and HTBP.
- Class A/B operation. First 25W in Class A.
- Tube Complement: (2) 6922/6dj8/7308.
- Zero global negative feedback.
- Remote Functions: Power, volume, mute, input select, dim/turn off displays.

SPECIFICATIONS:

- Input Impedance: 20K
- Gain: 30dB
- Frequency Response: 20Hz-100Khz.
- Dimensions: 17"Wx17"Dx6.5"H
- Product Weight: 64 lbs.
